WHOLESALE TRADE-LIST

OF THE

Morrisville Nurseries

SAMUEL C. MOON Morrisville, Bucks County, Penna.

THE MORRISVILLE NURSERIES are in Bucks county, Pennsylvania, about one mile from Morrisville, a station on the New York Division of the P. R. R., thirty miles from Philadelphia, sixty miles from New York, and two miles from Trenton, New Jersey. Carriages can always be obtained from the stations in Trenton. To get to the Nursery from Trenton, cross the Delaware River over the Bridge-street bridge and continue out Bridge street, one and a half miles westward toward Fallsington.

THROUGH FREIGHT RATES from Trenton to all principal cities north, south, east and west, via Pennsylvania, Reading, or Lehigh Valley Railroads. Also, water transportation to Philadelphia and New York. All goods will be delivered to the railroad or steamboat in good condition, after which they are entirely at the risk of the purchaser. Should any loss or delay occur to goods in transit, the forwarding company alone must be held accountable and responsible. Packing is done in first-class manner, and charged for at cost of material used.

ALL CLAIMS for errors or deductions must be made immediately upon receipt of goods.

TERMS CASH, unless by special agreement. I can ship by express, C. O. D., when desired, with charges for collection added to bill.

Address all orders and communications to

SAMUEL C. MOON,

Telephone 811-a, Trenton, N. J., Exchange.

Morrisville, Bucks County, Penna.

OUR NURSERY has been recently examined by the Special Agent of the Department of Agriculture for the state of Pennsylvania, and no evidence of the presence of injurious insects or diseases was found. The nursery is carefully examined every month. Copy of inspection certificate will be furnished when requested.

Samuel C. Moon's Wholesale Trade-List

LARGE STOCK.

Frequently we have calls for large, well grown specimen trees and shrubs, for producing immediate effect in new plantations.

The following are a few well developed plants that have been transplanted several times, and are still standing in cultivated land. They have excellent roots, and most of them can be shipped with heavy balls of earth if desired.

Further particulars respecting the stock will be furnished on application, but whenever practicable, it is more satisfactory for purchasers to visit the Nursery and examine such stock in person. We are glad to receive such visitors.

- 4 BEECH, American, 4 in. cal., 15 ft.
- 10 "European, 4 to 6 in. cal., 15 to 20 ft.
 - 1 CERCIDIPHYLLUM, 14 ft., 4-in. cal., bushy, branched low.
 - 5 ELMS, 5 to 8 in. cal., 25 to 35 ft.
- 6 MAGNOLIA Soulangeana, 10 to 12 ft., large bushes, branched low.
- 8 "Kobus, 9 to 12 ft., 3 in. cal., low branched, bushy tree.
- 2 MAPLE, Red or Scarlet, 8 to 9 in. cal., 35 to 40 ft.
- 3 OAK, English, 3 in. cal., 12 to 16 ft.
- 75 ALTHEA, Double White, tree-form, 3-year heads, 6 to 8 ft.
 - 2 BOX TREES, 6 ft. high, loose, open habit, not sheared.
 - 8 JAPAN JUDAS, 6 ft., large bushes.
- 100 DEUTZIA candidissima, crenata, scabra and Pride of Rochester, 6 to 8 ft., large bushes, 4 to 5 ft. in diameter.
- 20 VIBURNUM plicatum, 7 to 8 ft., well developed bushes.
- 12 WISTARIA sinensis, large, spreading bushes, 5 to 6 ft.
- 20 ERIANTHUS ravennæ, whole clumps, 12 in. in diameter.
- 100 EULALIAS, Japonica, Green Type, variegata, zebrina and gracillima, 12 to 15 in in diameter.
- 100 HARDY ORANGE (Citrus Trifoliata) 5 to 6 ft., fine bushes.
 - 1 Parkman's Double Flowering Crab, 8 ft., large bush; branched low.
 - 4 PICEA Nordmanniana, 12 to 14 ft.
 - 4 ABIES excelsa inverta, 10 to 14 ft.
 - 1 OXYDENDRON arborea (Sorrel Tree), 10 ft., well branched.
 - 1 QUERCUS imbricaria (Shingle Oak), 12 ft., branched low.
 - 1 PHELLODENDRON Amurense (Chinese Cork Tree) 10 ft.

Golden (T. bacco	ata aurea	e), 12 to 1	8 in., g	grafted	10 00	

The fine specimen of Picea excelsa inverta represented in the above cut is about 13 feet high and 10 feet broad. It is a thrifty plant in good condition, was transplanted in 1900, and has a fine mass of fibrous roots which retain a heavy ball of earth. It will be carefully dug and the roots mossed and the top protected with crate or burlaps and loaded on car for \$75.

AZALEA AMCENA. It is one of the choicest dwarf evergreen shrubs for small yards and for massing, and for bordering groups of rhododendrons or other broadleaved evergreens. It blooms very freely in early summer, and forces with the greatest ease. The flowers are semi-double, 1 inch in diameter and of rich carmine or magenta color, borne in great profusion. When full grown the plants attain a size of 3 to 4 feet in height. It is highly prized wherever known, and well grown specimens are always eagerly taken at good prices whenever they can be secured, but as it is a dwarf plant and a rather slow grower, the demand has always been in excess of the supply and large plants are always scarce. The young stock here offered will continue to increase in value for several years. For prices, see above.

LONICERA FRAGRANTISSIMA. This shrub is not sufficiently known nor appreciated. It is one of the best plants for informal shrubberies and for filling vacancies. It is very hardy, nearly evergreen, a vigorous grower, open and irregular in habit without sprawling "all over," blooming very early, often before the snow has entirely disappeared; the flowers are very fragrant with the delightful daphne perfume. It gives satisfaction wherever used and should be planted more freely.
